

Match

Dear Company Representative,

Welcome to SWE Match!

The [SWE Match](#) program at the University of Texas at Dallas section of the Society of Women Engineers works to create opportunities for more all-female teams to compete in engineering competitions. This season, SWE Match will be sending 12 women to the **Team Tech competition at the WE21 Conference in Indianapolis, IN**. To make this possible, we are looking for a corporate partner to aid in securing supplies for the engineering project and to provide feedback, advice, and mentorship to the team.

About [Team Tech](#)

Team Tech is a competition put on at the WE Conference every year. Teams of up to 12 women build a multidisciplinary engineering project over the course of a year. The Corporate Partner will come up with the project idea with the SWE Match Director's help to ensure feasibility. **The project idea should work against a common problem in the Corporate Partner's industry and span at least 3 engineering disciplines.** The team will then have one year to design and build the product, and, finally, one team member will present the project in front of the WE21 Conference, and we hope to send the other 11 women to the conference as well.

Corporate Partnership

We are looking for **one** corporate partner for this season of the Team Tech competition to **fund the project, up to \$1200, as limited by the Team Tech organizers, and provide an Industry Advisor**. The funding will go towards any supplies we will need to build the project in the coming academic year. The Industry Advisor will be invited to attend all of our general team meetings and provide feedback on the progress of the project. For the competition, the Industry Advisor is required to submit two short forms outlining the progress of the project to the Team Tech organizers.

Benefits:

- Opportunity to suggest a project idea based on an engineering problem in the Partner's industry
- Opportunity to work closely and build professional relationships with talented future engineers
- Logo on our t-shirt and presentation
- 3 social media shoutouts with links to your internship job site
- Invitation to hold one general SWE UTD networking event or workshop
- Invitation to hold two exclusive events, either workshops or networking events, with the SWE Match participants (one each semester)

Thank you so much for considering becoming our corporate partner for the 2020-2021 season of SWE Match!

Sincerely,
Caitlin Tibbetts
SWE Match Director
