

Caitlin Tibbetts

Austin, TX | caitlin@tibbettsfamily.com | (512)767-8749 | LinkedIn: caitlin-tibbetts | Github: caitlin-tibbetts

Sophomore in Computer Science at the University of Texas at Dallas looking for an internship for the summer of 2020, especially interested in gaining experience in full-stack development and artificial intelligence

1 Work Experience

Software Development Engineer (SDE) Intern - Cryptography Tools

May-August 2019

Amazon Future Engineers, Amazon, Seattle, WA

- Worked with the full-time SDEs to build, maintain, and document the AWS Encryption SDK.
- Built a true random number generator based on the entropy of a lava lamp.

2 Extracurricular and Volunteer Experience

HackUTD Marketing Coordinator

May 2019 - Present

Association of Computing Machinery, University of Texas at Dallas, Richardson, TX

- Create/curate content for all marketing platforms, digital and physical
- Update all social media at least three times a week

ACM Projects Officer

December 2018-Present

Association of Computing Machinery, University of Texas at Dallas, Richardson, TX

- Lead a team of beginner programmers in building a software project over a semester.

Director of Academic Enrichment

December 2018-Present

Alpha Gamma Delta - Epsilon Psi Chapter, University of Texas at Dallas, Richardson, TX

- Curate scholarships and other academic opportunities for members of the chapter.
- Plan and run weekly study events for the members of the chapter.

Lead Web Designer

February 2017-August 2018

East Austin Digital Connection, Austin, TX

- Consulted with EADC executives to help build easily navigable, manageable, as well as aesthetically-pleasing websites for East Austin businesses such as Sam's Bar-B-Que and Big Easy Bar & Grill on Wordpress with heavy customization.
- Developed the EADC Digital Bridge, which gives businesses and volunteers a safe and efficient place to connect. Made with Wordpress.

Social Media & Website Coordinator

July 2016-July 2018

TEDxYouth@Austin, Austin, TX

- Kept all TEDxYouth@Austin internet presence up to date and engaging throughout the year in order to bring attendees to the event in February.
- Made technical changes to the TEDxYouth@Austin website as needed and at the request of other team members.

3 Projects

Crealchemy

Android application

- Similar to the popular game Alchemy, Crealchemy allows the user to create their own elements to play with, opening up the possibilities of the game.

Perfect Playlist - ACM Projects

Android application

- With a team of undergraduates through the ACM Projects program, we built an application that uses natural language processing to build a music playlist for the user full of novel songs tailored to their situation and apparent mood.
- Used Android for the app and Houndify API for Natural Language Processing

Klo Kloset Organizer - HackUTD

React Native application

- App that uses Algorithmia API's to identify clothing items and suggest outfits based on garments in your closet.
- Node.JS, MongoDB, and React Native

Crypto Dragon

Python-built API

- With a team of other interns at Amazon, we are building a true random number generator based on the entropy of physical processes, such as fluid dynamics and avalanche noise.
- Raspberry Pi and Python

4 Education

University of Texas at Dallas
Richardson, TX

August 2018-Present

- Member of the Collegium V Honors Program
- Recipient of the Academic Excellence Scholarship
- Current GPA: 3.546

Liberal Arts and Science Academy
Austin, TX

August 2014-May 2018

- Distinguished Level of Achievement with Magnet Endorsement
- Advanced Placement: AP Computer Science (10th grade with a 5), AP Psychology (12th grade with a 5)

5 Skills

Proficient in French

Experience in cryptography, cloud computing, especially serverless, and Android mobile development

5.1 Programming languages

- Fluent: Java, Python
- Proficient: C++, HTML, CSS
- Currently learning Javascript
